

Glo Brite® 7760 Perimeter Demarcation and Obstacle Marking Solutions

Jessup Glo Brite® 7760 products meet the (2009, 2012 and 2015) International Building Code and International Fire Code standards for the marking of stairwells in high rise buildings. This product series is an aluminum based system utilizing a construction adhesive to permanently adhere to the wall, floor, door frame or obstacle. Glo Brite® 7760-AS1-1 is a permanent solution for marking the perimeter of stairwell landings and egress door perimeters. Glo Brite® 7760-AS1-STP-1 is a permanent solution for the marking of obstacles in high rise stairwells.

Available Sizes

7760-AS1-1

1-1/16" x 60" pieces

7760-AS1-STP-1

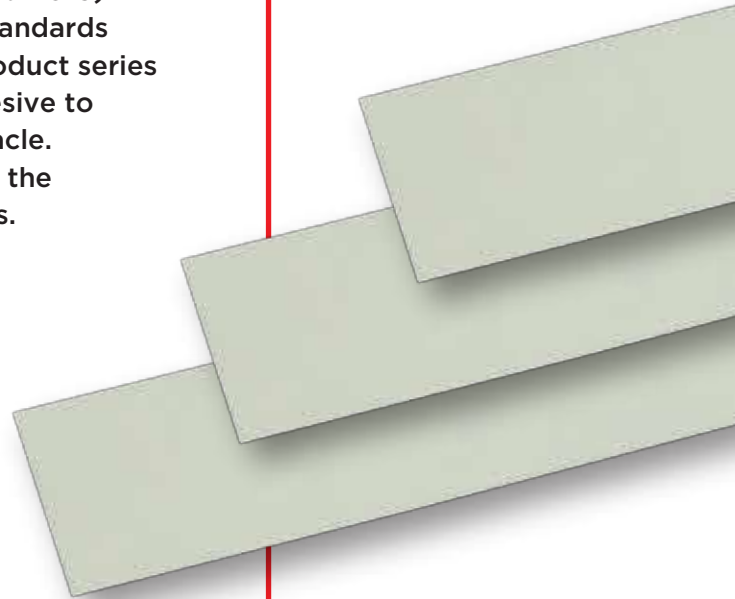

1-1/16" x 60" pieces

Features
