JESSUP Industrial Marking SYSTEM

The Jessup Color System for Industrial Marking Tape simplifies workplace organization and safety by categorizing areas with different colored tapes. It designates spaces for operational clearance, safety zones, hazardous areas, materials, inspection, production, and traffic flow, promoting efficiency and workplace safety protocols.

COLOR SYSTEM GUIDE

		4230 Flex Track® Yellow	Corridors and Traffic Lanes; Work Cells and Paths of Egress
		4235 Flex Track® White	Manufacturing Zone; Shelving, Machinery, Trolleys, Workbenches, and Additional Apparatus

JESSUP Industrial Marking SYSTEM

Save Time

Save Money

Save Downtime

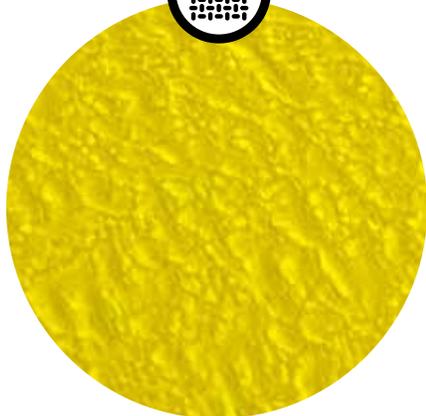

5

After enduring five months of foot traffic, pallet jack maneuvers, and forklift usage on our warehouse floor, our tape remains resilient. As shown in this picture after light mopping, it retains near original appearance.

Unlike paint, it applies quickly, withstands machinery and foot traffic, cleans easily, and leaves no sticky residue upon removal. With options for every purpose, it's the ultimate solution for efficient floor marking.

Constructed with the toughest adhesive and a protective overlamine, this anti-slip tape is built to endure, ensuring longevity and resilience in the most demanding environments.
