

January 23, 2013

Mr. Steve Blackowicz
Director of Engineering and Technical Services
Jessup Manufacturing Company
P.O. Box 366
McHenry, IL 60050

Dear Mr. Blackowicz:

Congratulations! The products listed below submitted for Phase 2 Testing in July 2006 are now recertified as providing "High-Traction". Your new certification will continue through January 23, 2016.

During the original testing protocol your products were installed in a commercial facility for a period of 30 days, and tested under NFSI test method 101-A. An on-site examination revealed Static Coefficient of Friction (SCOF) values greater than a 0.6 and therefore passed our Phase 2 level of certification.

An electronic version of the NFSI Certified logo may be obtained to which you are granted permission to attach to the labels, sales literature, website, etc for the products listed below.

NFSI Certified Products:

3100 Safety Track®
3200 Safety Track® Coarse
3300 Series Safety Track® Colors
3400 Series Glo Brite® Safety Track®
3500 Series Safety Track® Resilient

An electronic version of the NFSI Certified logo may be obtained to which you are granted permission to attach to the product label, sales literature, website, etc. Thank you for recertifying your products with the National Floor Safety Institute!

Sincerely,

Russell J. Kendzior
President
